

VAW MOTORCAST LTD

Another Schwank Success Story

Installation details: 46 gas-fired Supra radiant plaque heaters were chosen for this 12,796 sq.m. modern foundry. The plaques are mounted at 8.5 metres and occupy 4 bays measuring 20 metres wide, 95 metres long and 12 metres from floor to apex. Whilst heat loss calculations took into account air change rates of 450,000 cubic feet per minute, the radiant heating system ensures temperatures remain constant. Capital and installation costs £57,750. Energy bill £11,000 p.
