

LUCAS SEI

Another Schwank Success Story

Installation details: New building occupying 100,000 sq. ft. and housing over 700 employees all under one roof. The purpose-designed space heating system comprises of 60 SU38 gas-fired radiant tube heaters, overhead mounted and configured into 3 zones. Running costs equate to £30 per day/0.04 pence per employee to run. This represents a 50% energy saving over a warm air system.
